DISCUSSION ITEMS AND MOTIONS:

The board, John Scarinza and Kevin Rousseau, Road Agent, discussed the West End Culvert failure and reviewed recommendations from Erin Darrow, Engineer and a Contractor Consultant. After careful consideration it was determined to have a defined outline contract to be drawn up with the recommendations, and to include what the town is looking to accomplish regarding the bridge repair or replacement. John Turner will contact the town’s attorney to review the town’s position regarding the culvert failure.

The board reviewed the progress of the reconstruction of Durand Road. Wet-land permit applications have not been presented to the Conservation Commission for approval as of yet. The board will stress to the engineer, to concentrate on the reconstruction of Durand Road and adhering to the timeline expected to move forward on the project.

Kevin Rousseau reviewed with the board complaints from residents on Raycrest Drive. Kevin expressed the need for culverts on Raycrest Drive and working with the residents to create the culverts. Several residents have voiced sand washing down driveways onto residential property. The board agreed to have Kevin work with the residents on Raycrest Drive.

A meeting was called by Moderator David Willcox on July 8th to discuss the upcoming elections and voting procedures. The town is taking a more proactive approach and will accommodate all avenues to protect its voting residents.

The board signed and verified the acreage of the USA forest (NH PA-16) for their 2020 PILT payment and approved a Demolition and Building Permit for a garage on Randolph Hill Road. The board denied a permit for a garage for lack of adhering to the setback limits as outlined in the Land Use Ordinance. The resident will be referred to the Board of Adjustment.
