Selectmen Michele Cormier began the review of the Bond Options for Durand Road.

Paul Jadis explained how the options were determined. Based on the residential response from the two previous public meetings.

Concerns addressed included:

- Assessed Values
- Longevity of the road
- Full depth reclamation
- Partial vs. entire road
- Difference between using offsetting funds from the ETF
- Why the silent vote on the separate articles.
- Bids went out to contractors based on both articles.
- Looking for Federal Funds for support monies given to the State and Federal Roads.

Edith Tucker asked if there would be another public meeting to inform the residents. Paul Jadis stated that holding two previous public meetings, tonight’s meeting, and finally at the Town Hall meeting has given all the chance to speak.

The difference of consideration between the 10-year and 20 years of debt payments.

The meeting was adjourned at 6:40 pm
