

Approved

Town of Randolph
OFFICE OF THE SELECTMEN
MINUTES OF MEETING
February 23, 2026

Members Present: Michele Cormier, Paul Jadis, John Turner

Guests: Brian Lamarre, Paul Kenison, Gary Newfield
Linda Dupont

The meeting was called to order at 6:02 pm

Minutes were approved and vouchers signed.

Gary Newfield asked that Paul Kenison and Brian Lamarre be present to discuss the Japanese Knotweed issues along Durand Road. He explained that mowing the Japanese Knotweed when blooming can create the spreading of the nodules that attach themselves to the mowing blades. It mainly spreads by the roots and the Conservation Commission plans on addressing this invasive species in 2026. Property owners with Japanese Knotweed encroaching on their property will be notified.

It was asked if there were any sitings at the Landfill on Valley Road. Paul Kenison responded saying “No”. Paul Kenison did note seeing a patch on Randolph Hill Road by the Beringer’s property.

Knollwood Energy sent a Renewable Energy Agreement to the town to acquire REC (Renewable Energy Credits) from the production of unused Solar Energy produced. Selectman Paul A. Jadis signed the agreements.

Redza Dempster sent a letter to the board from the USDA (United States Department of Agriculture) selecting Snyder Brook Scenic Area for inclusion in the Old-Growth Forest Network (OGN). The White Mountain National Forest is honored to accept this designation.

The board adjourned at 6:33 pm

Randolph Board of Selectmen

Michele Cormier, Co-Chair

John Turner, Selectmen

Paul A. Jadis, Co-Chair

Linda Dupont, Assistant to the Selectmen
